EDUCATION

Master of Science, Management of Technology, GPA: 3.69/4

Sep 2024 – May 2026

New York University, Tandon School of Engineering

Relevant Coursework: Business Intelligence, Operations Management, Management Science, Economics & Strategy, Financial Analysis

Bachelors of Engineering, Computer Science (Minor in Data Science), GPA: 3.50/4

Aug 2020 – May 2024

Savitribai Phule Pune University, AISSMS College of Engineering

Relevant Coursework: Database Management, Big Data, Cloud Computing, Systems Programming, Data Visualization, Software Engineering

SKILLS

Business Analysis: Requirements Gathering, Stakeholder Management, User Story Development, Agile Methodology

Languages, Tools: Python, JavaScript, SQL, Excel, Tableau, Power BI, Google Analytics, Git

Project Management Tools: Microsoft Project, Miro, Jira, Smartsheet, Notion, Asana

EXPERIENCE

Research Analyst Intern (Capstone Client Engagement) 🔗, Booz Allen Hamilton

Sep 2025 – Jan 2026 | New York, USA

- Gathered sponsor requirements and developed a **vendor recommendation application** 🔗 through weekly **Agile** sprints, incorporating stakeholder feedback to refine evaluation criteria and solution functionality.
- Created a change-management roadmap, Gantt chart, and ROI/cost-benefit models to assess MBSE adoption scenarios and presented it in a **NYU conference** 🔗

Business Systems Analyst (Winter Intern) 🔗, Alhansat Solutions Pvt. Ltd.

Dec 2022 – Feb 2023 | Mumbai, India

- Supported the launch of DeveloperStar, a developer productivity platform that acquired **2,000+ users**
- Wrote technical and business **user stories on Jira** to translate stakeholder requirements into development tasks for engineering teams.
- Collaborated with clients to conduct **user acceptance testing** (UAT) and document enhancement requests.
- Developed and presented **Power BI dashboards** to leadership, providing visibility into **performance metrics** across **20+** developer productivity tools.

Business Analyst Intern 🔗, SAKSHI

Oct 2021 – Sep 2022 | New Delhi, India

- Led requirements elicitation with stakeholders ranging from end users to executive leadership to modernize a legacy Volunteer Onboarding system that **reduced approval time by 10+ hours**.
- Coordinated integration of Quaderno tax **automation** solutions into invoicing workflows, reducing manual effort and **decreasing processing errors by 40%**.
- Analyzed user behavior using Hotjar to identify rage clicks, navigation loops, and form abandonment patterns, **recommending workflow simplification and navigation redesigns**
- Collaborated with internal and contracted developers to support data migration, validate business rules, and test system functionality.

PROJECTS

Airline Flight Frequency Optimization 🔗, (Data Analytics)

New York University

- Developed **Python-based optimization models** using **Gurobi** to evaluate flight allocation scenarios across **30 airline routes** and identify profit-maximizing schedules.
- Built visualizations using **Matplotlib** to communicate optimization results, generating recommendations that **increased projected network profit by \$43.0M (7.47%)** while utilizing **85%** of available flight-hour **capacity**.

Healthcare Operations Dashboard 🔗, (Data Visualization)

Personal Project

- Processed and modeled large-scale electronic health record (EHR) data from the MIMIC-IV dataset using **SQL, Power Query, and DAX**, building a relational data model optimized for healthcare analytics.
- Developed an interactive **Power BI dashboard** featuring KPI cards, trend analysis, drill-through reports, slicers, and time intelligence to evaluate patient outcomes, hospital utilization, and operational efficiency.

LEADERSHIP

- Graduate Assistant, Communications Team (NYU Tandon)** - Supported admissions outreach through tours and engagement events
- Founder, Dronarjun Mentorship Program (IEEE)** - Connected 40+ researchers with industry mentors, facilitating 30+ research projects.
- Head of Operations (Google Developer Student Club)** - Managed 5+ events for 200+ attendees, overseeing logistics, budgeting, and execution
